# ALCOHOL

## WHAT TO KNOW ABOUT DRINKING ALCOHOL IN UTAH:

Bars and breweries will require you to scan a valid ID to enter. Beer on draft must be 5% ABV or less, but they do serve higher ABV beer in cans and bottles. Cocktails may only contain one shot of each type of liquor (i.e., you can't order a double whiskey, but feel free to drink a Long Island Iced Tea). You can drink at most restaurants as long as you also order food but be prepared to show a valid ID.

Beer is available in grocery stores at a lower APV. Beer, wine, and spirits are available from State-run liquor stores. Those stores are closed on Sundays.
